

FY18

Partner Agency Executive Directors,

Community Food Share's End Statements direct us to serve with priority those living at 185% or below of the federal poverty line. In an effort to measure how our target population is being served through our Partner Agencies, we would like for you to provide us with the percentage of your clients who live at or below 185% of the federal poverty line. We understand many Partner Agencies do not track this demographic; however, it remains important for Community Food Share to collect what data the Partner Agencies can offer. Please answer the question below using your best source of information. Please call me for any questions.
